

2. THE FINAL PREPARATION

Goals

- Install the materials from the tutorial and get them ready for work.

Download the tutorial materials

Download the tutorial materials here:

- http://githowto.com/sites/default/files/git_tutorial.zip

Extract the tutorial materials

The tutorial package should contain the main folder “git_tutorial” with two subfolders:

- work — an empty working directory. Your repositories will be created here.
- files — prepackaged files to let you continue working with the tutorial on any stage. If you get stuck, simply copy the desired lesson into your working folder.
